• Where appropriate, delinquent 2019 assessments are included in the above suits.

Paid in full:

Isidro Gallegos, Jr. 17-18 assessments \$318.95, 7046 Bellfort St.-0741530030012

2018 accounts:

The Furniture Bank \$4,546.44, 8220 Mosley Rd – 0342030020122

This account is a late delinquency. They have filed for exempt status and the application is pending.

• In addition to other 2018 accounts listed on this report, there are 21 accounts with 2018 base assessments ranging from \$3 to \$1,015; 17 of these accounts have base assessments of less than \$400. Demand letters have been sent, we are trying to reach each owner by phone and we are contacting lienholders, where appropriate.

Other accounts:

Ham's Aviation Maintenance Service Inc. 13-18 assessments \$4,558.37, improvements only account at 8703 Telephone Rd – 0432280000031

We have spoken to Carla Ham who said they left Houston many years ago and that Million Air is now the owner of this location. This is a building on city owned land at Hobby Airport. We have told HCAD what we know and we have asked them twice to let us know what they know about this account and they have not replied, the county tax office has over \$280,000 due on this account, it is odd that HCAD is unresponsive and nothing seems to have been done on this. A tax service contacted us on 5/18/17 and again on 6/23/17 for a payoff balance.

• In addition to the account listed above, there are 24 accounts with base assessments between \$2 and \$1,155. Demand letters have been sent, we are trying to reach each owner by phone and we are contacting lienholders, where appropriate. Due to the size of the accounts, further action is not recommended at this time.

If you have any questions, please feel free to contact me.

Board of Directors Hobby Area District Harris County, Texas

We are pleased to confirm our understanding of the services we are to provide Hobby Area District (the "District"). We will audit the financial statements of the governmental activities and each major fund, including the related notes to the financial statements, which collectively comprise the basic financial statements of the District as of and for each of the District's fiscal year ending December 31st.

ANNUAL AUDIT OF FINANCIAL STATEMENTS

Accounting standards generally accepted in the United States of America provide for certain required supplementary information (RSI), such as management's discussion and analysis (MD&A), to supplement the District's basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB) who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the District's RSI in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We will not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The following RSI is required by generally accepted accounting principles and will be subjected to certain limited procedures, but will not be audited:

- 1) Management's Discussion and Analysis, and
- Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual – General Fund

We have also been engaged to report on supplementary information other than RSI that accompanies the District's financial statements. The document we submit to you will include various supplementary schedules as required by the Texas Commission on Environmental Quality (the "Commission") as published in the *Water District Financial Management Guide*. This supplementary information will be subjected to the auditing procedures applied in our audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America and we will provide an opinion on it in relation to the financial statements as a whole except for that portion marked "unaudited", on which we will express no opinion.

Audit Objective

The objective of our audit is the expression of opinions as to whether your basic financial statements are fairly presented, in all material respects, in conformity with generally accepted accounting principles and to report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as a whole. Our audit will be conducted in accordance with auditing standards generally accepted in the United States of America and will include tests of the accounting records and other procedures we consider necessary to enable us to express such opinions. We will issue a written report upon completion of our audit of the District's financial statements. Our report will be addressed to the Board of Directors of the District. We cannot provide assurance that unmodified opinions will be expressed. Circumstances may arise in which it is necessary for us to modify our opinions or add emphasis-of-matter or other-matter paragraphs. If our opinions on the financial statements are other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or may withdraw from this engagement.

Audit Procedures - General

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We will plan and perform the audit to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the District or to acts by management or employees acting on behalf of the District.

Audit Procedures – General (Continued)

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because we will not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us, even though the audit is properly planned and performed in accordance with U.S. generally accepted auditing standards. In addition, an audit is not designed to detect immaterial misstatements, or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, we will inform you of any material errors, any fraudulent financial reporting, or misappropriation of assets that come to our attention. We will also inform you of any violations of laws or governmental. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are not engaged as auditors.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, and may include direct confirmation of certain assets and liabilities by correspondence with selected individuals, creditors, and financial institutions. We will request written representations from your attorneys as part of the engagement, and they may bill you for responding to this inquiry. At the conclusion of our audit, we will require certain written representations from you about the financial statements and related matters.

Audit Procedures – Internal Control

Our audit will include obtaining an understanding of the District and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. An audit is not designed to provide assurance on internal control or to identify deficiencies in internal control. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards.

Audit Procedures – Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatements, we will perform tests of the District's compliance with the provisions of applicable laws, regulations, contracts and agreements. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion.

Other Services

We will also prepare the financial statements, the appropriate capital asset schedules including calculation of depreciation on the capital assets and the journal entries to convert the fund financial statements to the government-wide financial statements as required by generally accepted accounting principles based on information provided by you. We will perform the services in accordance with applicable professional standards. The other services are limited to the services previously defined. We, in our sole professional judgment, reserve the right to refuse to perform any procedure or take any action that could be construed as assuming management responsibilities.

Management Responsibilities

Management is responsible for establishing and maintaining effective internal controls, including monitoring ongoing activities; for the selection and application of accounting principles; and for the preparation and fair presentation of the financial statements in conformity with U.S. generally accepted accounting principles.

Management is also responsible for making all financial records and related information available to us and for the accuracy and completeness of that information. You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, (2) additional information that we may request for the purpose of the audit, and (3) unrestricted access to persons within the government from whom we determine it necessary to obtain audit evidence.

Your responsibilities include adjusting the financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the District involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the District received in communications from employees, former employees, consultants, regulators, or others. In addition, you are responsible for identifying and ensuring that the District complies with applicable laws and regulations.

Management Responsibilities (Continued)

You are responsible for the preparation of the supplementary information in conformity with the Commission's requirements. You agree to include our report on the supplementary information in any document that contains and indicates that we have reported on the supplementary information. You also agree to include the audited financial statements with any presentation of the supplementary information that includes our report thereon. Your responsibilities include acknowledging to us in the representation letter that (1) you are responsible for presentation of the supplementary information in accordance with the Commission's requirements, (2) that you believe the supplementary information, including its form and content, is fairly presented in accordance with the Commission's requirements, (3) that the methods of measurement or presentation have not changed from those used in the prior period, and (4) you have disclosed to us any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information.

With regard to using the auditor's report, you understand that you must obtain our prior written consent to reproduce or use our report in bond offering official statements or other documents.

With regard to the electronic dissemination of audited financial statements, including financial statements published electronically on your website, you understand that electronic sites are a means to distribute information and, therefore, we are not required to read the information contained in these sites or to consider the consistency of other information in the electronic site with the original document.

You agree to assume all management responsibilities for financial statement preparation services and any other nonattest services we provide; oversee the services by designating an individual, preferably from senior management, with suitable skill, knowledge, or experience; evaluate the adequacy and results of the services; and accept responsibility for them.

Engagement Administration, Fees and Other

We are aware of the State statute requiring the audit to be completed within 120 days and filed with the Texas Commission on Environmental Quality within 135 days from the closing date of the audit and barring any unforeseen circumstances every effort will be made to comply with this rule.

In accordance with provisions of the Local Records Retention Schedule Section 2-1: Item 1025-01(e) we agree to retain our audit work papers in our office for a period of three years after all questions arising from the audit have been resolved. In order to allow for all questions arising from the audit to be resolved and to comply with Rule 501.76(f) of the Rules of Professional Conduct of the Texas State Board of Public Accountancy the actual date will be the five-year anniversary of the audit report in question. Engagement Administration, Fees and Other (Continued)

We expect to present a draft of the audit report within 45 days of the availability of the District's accounting records. Joseph Ellis is the engagement partner and is responsible for supervising the engagement and signing the report or authorizing another individual to sign the report. We will annually provide to the Board of Directors and the District's bookkeeper an estimate of the fees for the audit services during the District's annual budget process. The following is an estimate of our fees for the services included in this engagement letter for the initial audit period under this agreement:

• Fees for the audit of the District's financial statements and for the other services to be provided for the year ended December 31, 2019, will range between \$14,000 and \$16,000

Not included in the fees above are out-of-pocket costs such as printing, postage, and other charges incidental to the completion of our audit. If for any reason our services are terminated prior to issuance of a final report, our engagement will be deemed to have been completed, even if we have not completed our report. The District will be obligated to compensate us for our time expended through the date of termination. The above fee is based on anticipated cooperation from your consultants and the assumption that unexpected circumstances will not be encountered during the audit. If significant additional time is necessary, we will discuss it with you and arrive at a new fee estimate before we incur the additional costs.

GENERAL TERMS AND CONDITIONS

You may request that we perform additional services not contemplated by this engagement letter. If this occurs, we will communicate with you regarding the scope of the additional services and the estimated fees. We also may issue a separate engagement letter covering the additional services. In the absence of any other written documentation from us documenting such additional services, our services will continue to be governed by the terms of this engagement letter.

This agreement may be terminated by either party, with or without cause, upon 30 days written notice.

You agree that any dispute regarding this engagement will, prior to resorting to litigation, be submitted to mediation upon written request by either party. Both parties agree to try in good faith to settle the dispute in mediation. The American Arbitration Association will administer any such mediation in accordance with its Commercial Mediation Rules. The results of the mediation proceeding shall be binding only if each of us agrees to be bound. We will share any costs of mediation proceedings equally.

Pursuant to Chapter 2252, Texas Government Code, we represent and certify that, at the time of execution of this Agreement neither our firm, nor any wholly owned subsidiary, majority-owned subsidiary, parent company or affiliate of the same (i) engages in business with Iran, Sudan, or any foreign terrorist organization as described in Chapters 806 or 807 of the Texas Government Code, or Subchapter F of Chapter 2252 of the Texas Government Code, or (ii) is a company listed by the Texas Comptroller of Public Accounts under Sections 806.051, 807.051, or 2252.153 of the Texas Government Code. Continuity of Operations Plan COOP

<u>Purpose</u>

It is the intent of the Hobby Area District to respond quickly at all levels in the event of an emergency or threat in order to continue both critical internal and external operations within the boundaries of the District and surrounding areas. In accordance with the National Incident Management System (NIMS), a threat is defined as an occurrence, natural or man-made, that requires a response to protect life or property. The District will maintain cohesive contact with emergency management and response agencies, contracted vendors and staff that may be affected by the event. The identification and prioritization of essential functions is a necessity because it establishes the factors that drive all continuity planning and preparedness efforts. Specifically, they represent the overarching responsibilities of a governmental agency to lead and sustain vital operations and services during a crisis. Therefore, the uninterrupted continuation of the essential functions shall be the primary focus of government leadership during and in the aftermath of an emergency that adversely affects the district that it serves. Leadership and employees will continue to recognize their responsibilities to life safety and public safety while exercising this COOP Plan in a timely manner when confronted with disasters. In the event of disaster, the Hobby Area District may need to rely on services of adjacent jurisdictions, state and federal agencies, the private sector, and/or non-governmental organizations.

This plan identifies mission critical functions which consists of objectives, essential functions, notification procedures, and facilities readiness all reinforced by comprehensive training, orientation, and exercise programs. The District must maintain its COOP capabilities at a high level of readiness able to be implemented no later than 12 hours after activation, and be able to maintain sustained operations for up to 30 days or until termination.

Objectives

The objectives of this COOP Plan are as follows:

- Ensure the safety of the District's employees;
- Maintain command, control and direction during emergencies;
- Maintain mission essential operations;
- Protect critical facilities, equipment, records, and other assets;
- Maintain internal and external essential communications;
- Assess and minimize damages and losses;
- Provide organizational and operational stability;
- Facilitate decision-making during an emergency;
- Achieve an orderly recovery from emergency operations;
- Provide for the line of succession to critical management and technical positions.

These objectives comprise to meet the five phases of emergency preparedness which are classified below:

Essential Functions:

When confronting events that disrupt normal operations, the Hobby Area District is committed to ensuring that essential functions will be continued even under emergency circumstances. The Hobby Area District has identified as critical only those priority business functions that are required by statute, regulation or executive order, or are otherwise necessary to provide vital services, exercise civil authority, maintain the safety and well-being of the general populace, or to sustain critical support to the leadership and staff.

There are 4 essential functions that must be continued under all circumstances to enable District to carry out its critical government functions and services. They are the critical functions that save lives; protect the safety and security of the public; and protect property, critical infrastructure and the environment. These functions shall be reviewed and updated on an annual basis. The following are the current essential functions of the District:

Life Safety Public Safety Litter and Trash Abatement Business Functions

Organization Readiness and Preparedness

Typically, a local or county disaster declaration will trigger activation of a COOP plan. There are rare cases where the activation will be based on the assumption that the District will not receive warning of an impending emergency or disaster. As a result, the District must be prepared to activate the plan with or without warning and be operational within 12 hours and up to 30 days or whenever the threat/hazard no longer exists.

Staff Readiness and Preparedness

Hobby Area District personnel will prepare for a continuity event and plan in advance for what to do in an emergency. Personnel will train in partnership with FEMA, The Texas Division of Emergency Management and TEEX. Personnel will walk through a tabletop exercise quarterly to access the readiness of the staff and the District's readiness weaknesses and capabilities.

The District staff will have access to cell phones, laptops and other devices deemed necessary to carry out operations remotely if needed. Personnel will create and maintain Go-Kits. Continuity personnel are responsible for carrying the kits to the continuity facility or pre-positioning the kits at the continuity facility. Staff will be given a list of typical Go-Kit items.

Alert and Notification Procedures

The District has established specific procedures to alert the Board of Director's that COOP activation is imminent. The Board will be notified electronically followed up with a phone call.

The District will also develop a social media response that encompasses information vital to its constituents tailored to each event.

Facilities Continuities

To prepare for a continuity event, the District must be prepared to handle three types of emergencies: a localized emergency requiring relocation to an alternate site; a widespread emergency requiring relocation to an alternate site; and a widespread emergency NOT requiring relocation to an alternate site. If the District is faced with any emergency that requires the staff to relocate, there is no current facility that is in place to operate as an alternate location. The staff would then work remotely from their respective homes.

Order of Succession

Orders of succession are activated when leadership is unable or unavailable to execute their duties during an emergency. Departments must establish, disseminate, and maintain their orders of succession by COOP critical positions. Delegation of authority should be exercised only when immediate action is required, and a superior is unable and unavailable to exercise the authority. Essential personnel and their successors as identified as follows:

| Position | Designated Successor |
|-----------------------|-----------------------|
| Chair | Executive Director |
| Executive Director | Field Service Manager |
| Field Service Manager | Office Support |

Essential Records

Essential Records are records that, if damaged or destroyed, would disrupt operations and information flow and require replacement or re-creation at considerable expense or inconvenience. In continuity of operations planning, vital records are those records that are necessary to carry out mission essential functions. The Hobby Area District follows the TSLAC Local Government Records Act and therefore considers the District's records secure.

Chief Art Acevedo Houston Police Department City of Houston Attn: Lt. Robert Irving

Re: Crime Reduction Initiative - Hobby Area District (the "District")

The purpose of this letter is to document the understanding and expectations of the Hobby Area District ("the District") and the Houston Police Department, Southeast Division (the "Department"), with respect to the services to be provided within the District relating to the development and operation of a crime reduction initiative (the "Initiative").

The District and the Department will each establish a designee who will coordinate with each other regarding the provision of services to the District. The Department will identify hot spots within the District and proactively work to: (1) increase officer visibility; (2) reduce violent crimes; (3) identify gang-related activity; (4) remove illegal firearms; (5) identify/arrest those engaged in criminal activity; and (6) arrest wanted individuals.

As a proactive program, assignments will be determined by the Department, and assigned officers will maintain full responsibility for their activities. Low productivity will result in immediate removal from the Initiative. The Initiative will begin on <u>May 1, 2020</u>, and will be re-assessed monthly. Weekly reports will be provided to the District detailing services performed in connection with the accomplishment of the goals described above, as well as a full accounting of funds used. If terminated, the Department will refund any unused District funds.

The District will provide funding in an amount not to exceed \$10,000 for each month, with the first payment being provided to the Department as soon as practicable following receipt of your acceptance of this letter. By accepting this funding, the Department agrees to abide by the terms of this letter. The terms stated in this letter are valid until December 31, 2020.
